

THE Technology Leadership Experience®

Leadership Development for the Digital World

As the tech agenda grows bigger and bolder, there's a new urgency to get today's high-potential and emerging technology leaders prepared to take on tomorrow's C-level roles. Strengthening their leadership capabilities and business acumen will require new skill development as well as the ongoing advice and support of experienced mentors and trusted peer networks.

The Technology Leadership Experience (TechLX) provides an in-depth learning experience for a cohort of mid-level technology leaders within a single city. Through a combination of classroom workshops, networking, peer discussions, mentoring, and self-awareness, the program does more than build the next generation of technology leaders; it creates a powerful technology leadership community.

TechLX will move your organization up the IT Maturity Curve.

Moving IT Up The Maturity Curve

"I cannot thank you enough for all that you are doing for technology leadership throughout the region. I am grateful to have had the privilege to learn and develop through this program. I cannot overstate the impact that you and your team have had on my career trajectory. Thank you for inspiring and challenging me."

Participant feedback, The Technology Leadership Experience
